

Enzyme Maintenance for Regenerative Filter Media

Discover why this is the future of commercial water maintenance

Natural Chemistry's broad spectrum naturally based enzyme formula is the perfect enhancement to these filter medias. Paired with its automatic dosage pump, naturally based enzyme doses can be scheduled throughout the day-even when bathers are present!

Sizes Available

- 1 gallon sku #20301
- 5 gallon sku #20305

PRO SERIES® ProZymes® Pool

- Breaks down filter clogging bather waste, body lotions sunscreens/suntan oils pollen, and more
- Increases filter run cycles by decreasing the frequency of media changes and "bumping cycles"
- Reduces or eliminates media fouling & clumping due to oils and other non-living organic contamination
- Provides crystal clear water
- More consistent pre-coat cycles

Dosage information:

Initial/Start-Up Dose: Add 1 oz per 1,000 gallons at once every 7 days for the first 2-5 weeks.

Maintenance Dose: Add 1 oz per 1,000 gallons per week for high bather load pools (ideal application is multiple doses per day with an automatic dosage pump).
